

# Improve Your Jobsite Management and Help Increase Your Bottom Line

**See There**  
When You Can't Be There™

## Internet Remote Monitoring System<sup>1</sup>

- Manage multiple jobsites from almost anywhere
- View your cameras from the Internet<sup>2</sup>, your cell phone<sup>3</sup> or television<sup>4</sup>
- Sell it as an upgrade package to your customers for additional ROI

**Panasonic ideas for life**

*You've  
done  
everything  
right so  
far, so  
why stop  
now?*

# The Panasonic Internet Remote Monitoring System<sup>1</sup>

The Perfect Tool to

Get the Job Done Right!

**You hired the electrician, the mason and the plumber personally.**

*But, do you know if they showed up for the job?*

Simple – Use your cell phone, PDA or view the cameras on your television using the optional Panasonic TV Adaptor to make sure things stay on schedule from anywhere, on-site or off-site.

**You purchased all the necessary building materials.**

*But, did you ever wonder why you're short on materials at the end of the day?*

Simple – the Panasonic Remote Monitoring System is capable of up to 42X Zoom. It can capture video with a built-in SD Card slot or use recording software to catch activity, 24 hours a day, 7 days a week.

**You made a lot of smart decisions to get this far.**

*But, are there other ways to maximize your profit?*

Simple – make better use of your time and monitor an unlimited number of job sites remotely while having the new owner pay for the structured wiring and cameras for their own security and remote monitoring applications.

## View & Control the Cameras

...from your Computer<sup>2</sup>

- Displays up to 4 Cameras on the Screen
- Change Camera Direction by Remote Control
- Record and Email Camera Triggered Events on an Optional SD Memory Card

...from your Cell Phone or PDA<sup>3</sup>

- Receive Email Alerts
- View from Almost Anywhere

## Create a Complete Solution to Suit the New Owner

A Structured Wiring Package That Sells Itself

**Who doesn't want to make their lives easier?**

By putting a structured wiring system in the home from the beginning, you can help your client save money in the long run and save yourself a big headache by making installation that much easier for you. Network cameras are a great added value that will more than justify the cost of the structured wiring in the home. Once the cameras are installed you will be able to offer the client the benefit of being able to watch "live" the construction of their home. Once they are comfortable with how the network camera works it will be easy for them to understand how it will benefit them in the future:

- Keep tabs on the house from a vacation spot
- See if the kids are doing their homework or watching TV
- Make sure the backyard gate wasn't left open
- Capture the events when the alarm goes off
- Monitor cleaning people and caregivers

# Panasonic Total Solutions

## Monitor Your Business Remotely

Panasonic Network Cameras are a tremendous asset for today's contractors. They're versatile and powerful and equipped with key functions. Through a variety of interfaces—your compatible cell phone, PC, PDA or TV—you can view and interact with your sub-contractors—and even have control over the camera.

Some of our cameras include features such as:

- Pan Scan
- Remote Pan and Tilt
- Snapshot
- Alarm
- Tilt Scan
- Zoom Function
- 2-way Audio
- Wired or Wireless

From afar, you can count on these high-tech cameras to capture crisp, clear images so you can see much of what's happening in and around your business at different hours of the day.

## A Whole New Angle

The vast selection of Panasonic network cameras offers an astounding array of features and benefits ideal for contractors. Our cameras can be placed in a variety of strategic locations, inside and outside to offer you a thorough vision of your sites. Choose the Panasonic Network Cameras suited for your business today.
